STEM Course Access & Enrollment Overview

Public school enrollment in mathematics and science courses by state, course, and student group.

Course Category

Total

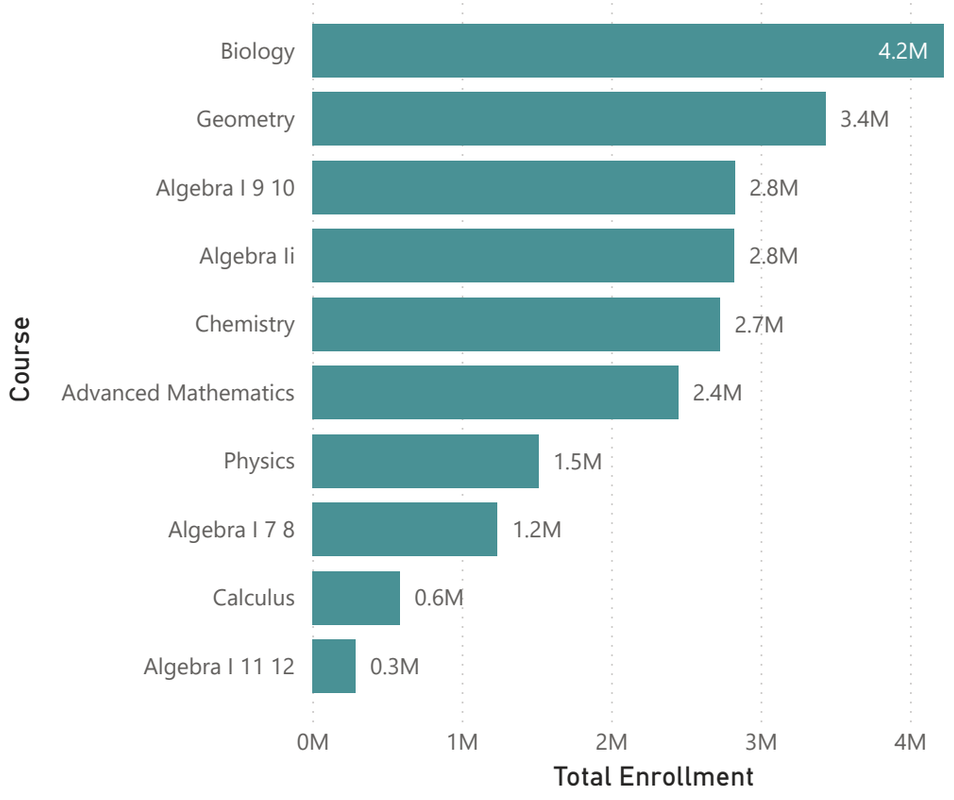

Data Status
All

Total Enrollment	Schools Reporting	Avg. Reporting Rate	Courses Analyzed
22M	283K	100%	10

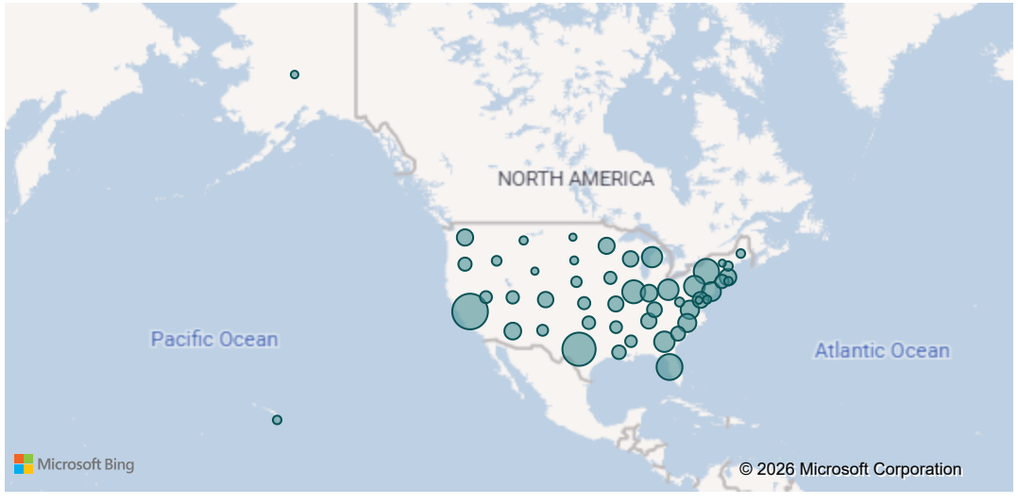

Key Insight:
Biology and Geometry have the highest reported enrollment, while Calculus and Algebra I Grades 11-12 show lower participation. Enrollment should be reviewed alongside reporting coverage and course availability to avoid over-interpreting access differences.

Enrollment by Course

Enrollment reflects total reported students by course and state.

Enrollment by State

State	Total Enrollment	Total Schools Reporting	Avg. Reporting Rate
California	2,820,133	28,279	100%
Texas	2,404,645	24,260	100%
Florida	1,364,630	12,052	100%
New York	1,291,722	18,976	100%
Illinois	1,032,438	10,896	100%
Total	**22,105,150**	**282,642**	**100%**

Course Enrollment Comparison

Comparing reported enrollment across mathematics and science courses.

Data Status
All

Total Enrollment	Courses Analyzed	Highest Enrollment Course	Lowest Enrollment Course
22M	10	Biology	Algebra I 11 12

Key Insight:
Enrollment is highest in foundational STEM courses and lower in advanced courses such as Calculus and Physics. Because reporting counts vary by course and state, enrollment patterns should be interpreted alongside school reporting coverage.

Enrollment by Course and Category

Course	Course Category	Total Enrollment	Course Enrollment Share
Biology	Science	4,226,613	49.93%
Chemistry	Science	2,727,203	32.22%
Geometry	Mathematics	3,433,206	25.17%
Algebra I 9 10	Mathematics	2,825,565	20.71%
Algebra Ii	Mathematics	2,823,385	20.70%
Advanced Mathematics	Mathematics	2,447,409	17.94%
Physics	Science	1,510,512	17.85%
Algebra I 7 8	Mathematics	1,238,262	9.08%
Calculus	Mathematics	584,988	4.29%
Algebra I 11 12	Mathematics	288,007	2.11%
Total		**22,105,150**	**100.00%**
